

Community Health Center

Presents:

Giggles 'n' GUAC

Community Health Center of Mason City presents Giggles 'n' Guac, our Third Annual fundraiser, taking place on Saturday, April 12th at 6 PM at the Best Western in Clear Lake.

This year, funds raised will support our efforts to enhance healthcare access by purchasing a Cepheid PCR machine. This innovative technology allows us to perform rapid tests for Flu, COVID-19, and RSV with just one swab, making the process faster and less invasive—especially for children. Results are available in just 36 minutes, and the test is covered by most major insurance as well as Medicare, Medicaid, and is available to those on our sliding fee scale, ensuring it is accessible to all. Your generosity will help bring this essential resource to our community, providing faster and more accurate results and ultimately improving health outcomes for individuals of all ages and backgrounds.

As a non-profit organization, we offer comprehensive medical, dental, and behavioral health services to all patients, regardless of insurance status, and provide a sliding fee scale for those who qualify.

Vision: We accept people as they are and help them live the life they want to live.

Mission: Partnering with you by providing thorough, patient-focused healthcare and supporting you on your journey to well-being.

Cepheid PCR

This year on top of our usual services and clinic needs, we will be putting the funds raised towards the purchase of an Cepheid PCR machine. This innovative technology allows us to perform rapid tests for Flu, COVID-19, and RSV with just one swab, making the process faster and less invasive—especially for children. Results are available in just 36 minutes, and the test is covered by Medicare, Medicaid, and is available to those on our sliding fee scale, ensuring it is accessible to all. This initiative will also provide valuable support to nursing home staff and others who require frequent testing.
